Look Both Ways Collection | LVT

Climate change is undeniable. And reversible. Our mission is to prove it. Join the #ClimateTakeBack and help create a climate fit for life.

Interface®

Monolithic textures denoting gravity and substance live with light-hearted color and confetti. Unexpected combinations of materials inspire creative outcomes. Celebrate the mix!

Look Both Ways is a collection of carpet tile and LVT patterns combining Zen-like purity with playfulness. Marrying purpose and function with your intention, these styles create landscapes that perform and delight in infinite ways.

Walk of Life™, the bedrock of the LVT collection, is gritty, not polished. Sharing the same urban gray palette, Walk the Aisle™ sparkles with a luminescent fleck that energizes the surface. Walk About™ appears carved in ways that conjure pattern-love from the 1920s, 1980s, and today. And finally Walk on By™ is a vision of pure joy in brights & neutrals. Step, walk or run, but definitely look both ways for design inspiration.

Carbon Neutral Floors™ Like all of our products, globally, Look Both Ways is carbon neutral. Join us in creating a climate fit for life. **#ClimateTakeBack**

LVT & Carpet. A power duo.

Look Both Ways combines hard and soft flooring with intentional design, which makes choosing the right materials for your space even easier. Seamlessly move from carpet tile in a private work area to LVT in a busy corridor, without changing patterns or using transition strips. Brighten a small, but heavily trafficked space with a lighter shade of LVT and create nested areas with inset area rugs. Every mix is a match with no sacrifice of performance or aesthetics.

Integrated System.

Say goodbye to transition strips and doubling up. Our modular resilient floorings are made to work as a system with our modular carpet. The compatible size and height of our products allows you to integrate modular carpet for an inset rug or an adjacent field – no transition strip required. You'll avoid doubling up on materials and save money.

Real Flexibility.

Create a unique look that lasts. Interface modular resilient LVT makes it easy to extend the life of your floor. From simple maintenance like damp mopping to selectively replacing damaged tiles, your flooring investment will stand the test of time - beautifully and effortlessly.

Circular System.

Keep flooring out of the landfill. Our modular resilient LVT is produced with a controlled material stream so it can be reclaimed and recycled into our GlasBac™RE recycled content backing through our ReEntry™ program.

Noise Reduction.

Silence distractions. Interface is helping create +Positive spaces™ with our LVT with Sound Choice backing. Sound Choice is a specially formulated backing developed for superior noise reduction, offering you best-in-class performance for reduced impact sound and floor to floor sound transmission.

Interface Modular Resilient LVT
and Modular Carpet allow you to
seamlessly move from hard to soft
surfaces. No transition strip needed.

Why Our Modular Resilient LVT? (continued)

High Performance from Top to Bottom.

1. *Ceramor™ Coating.* Minimizes everyday scratching and scuffing.
2. *Wear Layer.* High quality layer enabling 15 years of resilience and performance.
3. *Print Film.* Provides outstanding visuals of natural materials and Interface innovative designs.
4. *Core Sheet.* Creates a thickness for a stronger core and reduces telegraphing from beneath.
5. *Fiberglass.* Adds dimensional stability and controlled flexibility.
6. *Core Sheet.* Creates a thickness for a stronger core and reduces telegraphing from beneath.
7. *Sound Choice™.* Provides comfort and superior acoustic performance.

Third Party Certification.

Carbon Neutral Floors. All Interface flooring sold globally is third party verified carbon neutral. We've taken a holistic approach to achieve carbon neutrality, first through reducing the carbon footprint of our products and then using carbon offsets for the remainder.

Environmental Product Declaration (EPD). Interface LVT products are covered by an EPD. An EPD provides a comprehensive statement of product ingredients and environmental impacts based upon life cycle assessment performed to ISO standards.

Sustainable Assessment. Interface LVT meets the certification standards of the NSF/ANSI 332 Sustainability Assessment for Resilient Floor Coverings. This standard evaluates the environmental impact of resilient floor covering for its entire lifecycle.

Indoor Air Quality. All Interface modular flooring products meet the highest standards for indoor air quality. Interface LVT is FloorScore® Certified, assuring very low emissions of VOCs.
