Lost Palms™ Collection

Invite the rugged, southwestern frontier indoors.

The naturally occurring patterns in the Joshua trees, giant rock formations and cracked stones of the southwestern desert landscape soothe and comfort. These organic designs and textures inspire Interface's Lost Palms™ Collection, and feature biophilic motifs intentionally designed at a larger scale (1 m x 1 m and 50 cm x 1 m) to mimic the grandeur of this iconic terrain.

With nine products in the Lost Palms Collection, the five foundational stone-inspired styles come in colorways of classic cool and warm grays. Jumbo Rock™, Cap Rock™ and Keys View™ styles provide a smoother, lower profile that channels the less-rugged formations polished by erosion. Texture and cracks begin to show through Desert Veins™, while Ribbon Rock™ unearths the most depth with its super-plush pile and clear marbling. Accent product Desert Ranch™ ushers in a classic, southwest vibe, shifting the color palette into earthier tones. Yucca Tree™, Valley View™ and Desert Tree™, found within our specialty FLOR brand, bring mid-century into the moment for a modern, Palm Springs aesthetic featuring terra cotta, olives, light browns and dusty blues.

No stranger to innovation, Interface carpet tile has the lowest carbon footprint in the commercial flooring industry—before any offsets. And like all Interface products, the Lost Palms Collection is third party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program.

Why Our Modular Flooring?

Modular Flooring

Performance and flexibility. Interface's standard backing systems set the industry standard for modular performance. Tiles stay on the floor with no upcurl, no tapping and no rippling effect, yet are easy to selectively replace. Our modular carpet is easier to handle than bulky roll carpet and produces an average of just 3-4% waste compared to roll carpet's average of 14%. And it installs seamlessly with our LVT, no transition strips needed.

TacTiles™

No glue installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that "floats" for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives. TacTiles are approved for use on GlasBac™, CQuest™GB, CQuest™ Bio and CQuest™BioX.

Intersept®

Mold protection. Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde. Intersept is standard in Interface carpet tile products backed with GlasBac, CQuestGB, ReadyBac™ and CushionBac Renew™.

ReEntry™

Recyclable. Through our ReEntry program we reclaim and recycle our carpet tile and Sound Choice™ LVT. ReEntry is the only third party certified recycling system among North American flooring manufacturers.

Sustainability Transparency

Transparency and certified sustainability leadership come standard on Interface products. We enlist outside partners to help us evaluate the entire product lifecycle and reduce the environmental and human health impact of our flooring. And, carpet products made in our US facilities are made with 99% renewable energy.

Help Lower Your Carbon Footprint

Like all the flooring products we sell, Interface carpet tile is carbon neutral across its full product life cycle through our third party verified Carbon Neutral Floors™ program. To find out more, visit interface.com/carbonneutral

Environmental Product Declaration (EPD) –

A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

Health Product Declaration (HPD) –

A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern.

CRI Green Label Plus – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

NSF 140 Sustainable Carpet Assessment – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

FLOR®

FLOR by Interface offers lush textures and bold patterns that are anything but business as usual. FLOR carpet tiles are the perfect design accent for offices, conference rooms and high-profile collaborative spaces – as area rugs or wall-to-wall installations. With all the performance benefits of Interface products, including the 15-year commercial warranty, they'll get the job done for years to come.

InterCircle Sample Return

Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see interface.com/disclaimer.
