Pin Line™, Vector™ & Micro Line™

---

Three different lines. One point: Less is more (again) and looking good. We've learned the hard lesson in recent years of how to do a whole lot more with a lot less. But nowhere was it written that we had to sacrifice good design in the process. Especially in business interiors, we need materials that delineate this point—eliminate excess and underline style and performance. Pin Line, Vector and Micro Line match all the bright ideas and promise that you've invested in your business with equal amounts of finish and confidence, each made with only the essential materials in truly reliable constructions. Pin Line is a discreet looped finish that's highlighted by an accent that is perfectly scaled for the office. Micro Line is a bit edgier with its flat-woven texture that feels current and looks sharp. And Vector's classic monolithic texture provides a great companion for both. Get the point?

## Pin Line™ Colorline

103533 BARK

103534 CHARCOAL

103535 STRAW

103536 GRANITE

103537 FLAX

103538 STONE

103539 SAGE

103540 ASH

## Specifications

Modular, 50 cm x 50 cm	138660
Yarn Manufacturer	Aquafil
Yarn System	100% Recycled Content Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Lifetime Antimicrobial	Intersept®
Soil/Stain Protection	Protekt <sup>2</sup> ®
Pile Thickness	0.078 in., 2.0 mm
Pile Density	6,923
Total Recycled Content	Up to 83% on CQuestGB
Indoor Air Quality	CRI Green Label Plus #GLP0820

## Vector™ Colorline

103525 BARK

103526 CHARCOAL

103527 STRAW

103528 GRANITE

103529 FLAX

103530 STONE

103531 SAGE

103532 ASH

## Specifications

Modular, 50 cm x 50 cm	138650
Yarn Manufacturer	Aquafil
Yarn System	100% Recycled Content Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Lifetime Antimicrobial	Intersept®
Soil/Stain Protection	Protekt2®
Pile Thickness	0.104 in., 2.6 mm
Pile Density	4,846
Total Recycled Content	Up to 83% on CQuestGB
Indoor Air Quality	CRI Green Label Plus #GLP0820

MONOLITHIC    QUARTER-TURN

## Micro Line™ Colorline

103711 BARK

103712 CHARCOAL

103713 STRAW

103714 GRANITE

103715 FLAX

103716 STONE

103717 SAGE

103718 ASH

## Specifications

Modular, 50 cm x 50 cm	1022U0
Yarn Manufacturer	Aquafil
Yarn System	100% Recycled Content Nylon
Color System	100% Solution Dyed
Construction	Tufted Level Loop
Lifetime Antimicrobial	Intersept®
Soil/Stain Protection	Protekt2®
Pile Thickness	0.030 in., 0.8 mm
Pile Density	13,200
Total Recycled Content	Up to 82% on CQuestGB
Indoor Air Quality	CRI Green Label Plus #GLP0820

QUARTER-TURN

## Why Our Modular Flooring?

### Modular Flooring

#### Performance and flexibility.

Interface's standard backing systems set the industry standard for modular performance. Tiles stay on the floor with no upcurl, no tapping and no rippling effect, yet are easy to selectively replace. Our modular carpet is easier to handle than bulky roll carpet and produces an average of just 3-4% waste compared to roll carpet's average of 14%. And it installs seamlessly with our LVT, no transition strips needed.

### TacTiles™

*No glue installation.* Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that "floats" for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

### Intersept™

*Mold protection.* Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

### ReEntry™

*Recyclable is now a reality.* Through our ReEntry program and partnerships with our fiber suppliers and recycling centers throughout North America, separated Type 6 and 6,6 nylon are recycled into new 6 and 6,6 nylon while separated GlasBac™, GlasBacRE, similar competitive backings and our own LVT are recycled into new GlasBacRE non-virgin PVC backing using our Cool Blue™ technology. The result? Products with up to 89% total recycled content, including as much as 27% post-consumer content.

### Sustainable Choice

*Environmental responsibility.* More than 95% of Interface products manufactured in the Americas carry the GreenCircle Certified Environmental Facts label, which has verified that standard Interface products are manufactured using 99% renewable energy and offer a minimum of 66% and 80% total recycled content when backed with GlasBac and GlasBacRE backing respectively.

Transparency and certified sustainability leadership come standard on all Interface products, including published ingredients in HPDs (Health Product Declarations) or Declare Labels. In addition, more than 99% of our products globally have a published EPD (Environmental Product Declaration), which evaluates consistent factors based on full life cycle assessment (LCA). And, all Interface products with GlasBacRE backing are certified to the Platinum level of the NSF/ANSI 140 Sustainable Assessment for Carpet. GlasBac backed products meet the Gold level. NSF/ANSI 140 certified products contribute toward a USGBC or CaGBC LEED credit.

**Third Party Certification**  
Our Carbon Neutral Floors™ program is annually verified by a third party.

**Environmental Product Declaration (EPD)** – A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

**Sustainable Assessment for Carpet** – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

**CRI Green Label Plus** – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

### Samples

Order samples at [www.interface.com](http://www.interface.com). You'll receive email order confirmations, 24/7 access to order status and more. Not near a computer? You can also request samples by calling one of the numbers below.

### InterCircle Sample Return

Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see [www.interface.com/disclaimer](http://www.interface.com/disclaimer).

Printed on 50% post consumer waste (PCW) fiber manufactured using wind power.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.
