Silver Linings™ Collection

Special thanks to Haworth® for use of their headquarters in Holland, MI for all images.

A stormy sky might seem hopeless, but silver linings in dark clouds assure us of the optimism of nature, that storms will clear to brighter prospects.

Loaded with possibilities, Silver Linings™ is a collection of three patterns in 12 colorways designed in our 25cm x 1m skinny plank format. SL910™ is the quiet-before-the-storm, pure texture. Three accent colors start to flicker through the second texture, SL920™. And a very exciting new effect appears in SL930™, where each accent finds a place on its own tile and color flashes in bold gestures—transforming the whole atmosphere of a space through the shift in scale.
