

# The Standard

## The Standard™

---

The Standard is designed on Interface's i2™ platform. This biomimicry-inspired innovation applies nature's model for color and pattern to carpet tile design. The result is a non-directional pattern that captures the naturally imperfect essence of leaves on forest floors and stones on riverbeds. And i2 styles have mergeable dye lots, meaning tiles of the same color but different dye lots still blend together, even if a single tile needs replacing years later.

# The Standard™ Color Range

9355 SESAME

9356 RAFFIA

9357 VELLUM

9358 SPICE

9359 GUAVA

106178 GRANITE

106179 JETMIST

106180 CORNERSTONE

106181 RARE EARTH

106182 BROWNSTONE

9360 AZTEC

9361 MANGROVE

9362 VISLAYA

9363 SEASHELL

9364 BLUEFISH

106183 AGATE

106184 SILICA

106185 CARNELIAN

106186 GARNET

106187 PERIDOT

9365 WATERCOLOR

9366 ARTICHOKE

9367 TANGLEWOOD

9368 SHALE

106189 LAZULI

106190 CHARIOTE

106191 BLUESTONE

106578 CORAL

9370 PEACOCK

9371 AEGEAN

9372 GLACIER

106176 MAGMA

106177 CONCRETE

106579 AQUAMARINE

## Specifications **i2**

Modular, 50 cm x 50 cm	14673
Yarn Manufacturer	Universal
Yarn System	100% Post-Consumer Content Nylon
Dye Method	100% Solution Dyed
Construction	Tufted Textured Loop
Preservative Protection	Intersept®
Soil/Stain Protection	Protekt <sup>2</sup> ™
Pile Thickness	0.074 in, 1.9 mm
Pile Density	7,297 oz/yd <sup>3</sup>
Total Recycled Content	64%
Indoor Air Quality	CRI Green Label Plus #GLP0820

## Why Our Modular Flooring?

### **i2® Modular Carpet**

*Minimize waste & save money.* Interface's i2® styles have mergeable dye lots. That means i2 tiles from different dye lots always blend with tiles of the same color, even when individual tiles are selectively replaced years later. This minimizes the need for attic stock and saves money. And i2 styles that install non directionally generate an average of only 1.5% installation waste as compared to 3-4% for typical modular carpet and an average of 14% for traditional roll carpet.

### **TacTiles™**

*No glue installation.* Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives. TacTiles are approved for use on GlasBac™, CQuest™GB, CQuest™Bio and CQuest™BioX.

### **Intersept®**

*Mold protection.* Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde. Intersept is standard in Interface carpet tile products backed with GlasBac, CQuestGB, ReadyBac™ and CushionBac Renew™.

### **Environmental Product Declaration (EPD)**

A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

### **Health Product Declaration (HPD)**

A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern.

### **CRI Green Label Plus**

An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

### **NSF 140 Sustainable Carpet Assessment**

The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire life cycle.

### **ReEntry™**

*Recyclable.* Through our ReEntry program we reclaim and recycle our carpet tile and Sound Choice™ LVT. ReEntry is the only third party certified recycling system among North American flooring manufacturers.

### **Sustainability Transparency**

Transparency and certified sustainability leadership come standard on Interface products. We enlist outside partners to help us evaluate the entire product life cycle and reduce the environmental and human health impact of our flooring. And, carpet products made in our US facilities are made with 99% renewable energy.

### **Samples**

Register and order samples at [interface.com](https://www.interface.com). Not near a computer? You can also request samples by calling one of the numbers below.

### **InterCircle Sample Return**

Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see [interface.com/disclaimer](https://www.interface.com/disclaimer).

PLEASE RECYCLE

Printed on 50% post consumer waste (PCW) fiber manufactured using wind power.
