Climate change is undeniable. And reversible. Our mission is to prove it. Join the #ClimateTakeBack and help create a climate fit for life.

# Moven-Gradience Collection

WG 100  
WG200

**Interface®**

# Blend in to stand out.

Take a look at the Woven Gradience™ Collection.

With Woven Gradience, color transitions effortlessly through a space. Calm or invigorate, soothe or surprise with subtle spectrums that create customizable moments across the floor. The woven textile aesthetic brings familiar comforts into productive spaces while offering the flexibility to play it safe—or push what's possible.

Sleek, tailored and timeless, these carpet squares can remain reserved with WG100 standing solidly on its own through six warm neutrals and eight sophisticated accents. Or combine with WG200 to create gradients on the floor for a more vivid experience. With just two products, you can instantly connect and define space.

No stranger to innovation, Interface carpet tile has the lowest carbon footprint in the industry—before any offsets. And like all Interface products, the Woven Gradience Collection is third-party verified carbon neutral across the full product life cycle through our Carbon Neutral Floors™ program.

## Specifications

Modular, 50cm x 50cm	13127
Yarn Manufacturer	Aquafil
Yarn System	100% Recycled Content Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Preservative Protection	Intersept®
Soil/Stain Protection	Protekt <sup>2</sup> ®
Pile Thickness	.095 in., 2.4 mm
Pile Density	8,716 oz/yd <sup>3</sup>
Total Recycled Content	Up to 84%
Indoor Air Quality	CRI Green Label Plus #GLP0820

## Why Our Modular Flooring?

### Modular Flooring

#### *Performance and flexibility.*

Interface's standard backing systems set the industry standard for modular performance. Tiles stay on the floor with no upcurl, no tapping and no rippling effect, yet are easy to selectively replace. Our modular carpet is easier to handle than bulky roll carpet and produces an average of just 3-4% waste compared to roll carpet's average of 14%. And it installs seamlessly with our LVT, no transition strips needed.

### TacTiles™

*No glue installation.* Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives. TacTiles are approved for use on GlasBac™, CQuest™GB, CQuest™Bio and CQuest™BioX.

### Intersept®

*Mold protection.* Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde. Intersept is standard in Interface carpet tile products backed with GlasBac, CQuestGB, ReadyBac™ and CushionBac Renew™.

### ReEntry™

*Recyclable.* Through our ReEntry program we reclaim and recycle our carpet tile and Sound Choice™ LVT. ReEntry is the only third party certified recycling system among North American flooring manufacturers.

### Sustainability Transparency

Transparency and certified sustainability leadership come standard on Interface products. We enlist outside partners to help us evaluate the entire product lifecycle and reduce the environmental and human health impact of our flooring. And, carpet products made in our US facilities are made with 99% renewable energy.

### Help Lower Your Carbon Footprint

Like all the flooring products we sell, Interface carpet tile is carbon neutral across its full product life cycle through our third party verified Carbon Neutral Floors™ program. To find out more, visit [interface.com/carbonneutral](http://interface.com/carbonneutral)

### Environmental Product Declaration (EPD) –

A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

### Health Product Declaration (HPD) –

A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern.

**CRI Green Label Plus** – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

**NSF 140 Sustainable Carpet Assessment** – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

### InterCircle Sample Return

Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see [interface.com/disclaimer](http://interface.com/disclaimer).
