

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995:

Except for historical information contained therein, the other matters set forth in www.interface.com/carbonnegative and its linked webpages are forward-looking statements. Forward-looking statements in these webpages include, without limitation, the projected commercial availability of Interface's new carbon negative carpet tile, carbon negative backings and its plans for future carbon negative products. These forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from any such statement, including the risks that the manufacturing upgrades necessary to produce the new carpet tile, backings or products will take a longer time to implement or be more expensive than currently projected, and that the technology enabling the carpet tile, backings and any other new products to be carbon negative may not be as effective in storing atmospheric carbon as Interface currently anticipates. Additional risks and uncertainties that may cause actual results to differ materially from those predicted in forward-looking statements also include, but are not limited to the risk factors included in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

Any forward-looking statements are made pursuant to the Private Securities Litigation Reform Act of 1995 and, as such, speak only as of the date of initial publication. Interface assumes no responsibility to update or revise forward-looking statements made in these webpages and cautions readers not to place undue reliance on any such forward-looking statements.
