## Simple Sash

## Interface<sup>®</sup>

| Full Life Cycle Carbon Footprint | According to EPD or EPD calculation method   |  |  |
|----------------------------------|--|--|--|
| Embodied Carbon (Cradle to Gate) | 2.8 kg CO <sub>2</sub> eq./m <sup>2</sup>  |  |  |
| Full Life Cycle Carbon           | Certified Carbon Neutral Floors™   |  |  |
| Installation Impacts             |  |  |  |
| Installation Waste               | In a typical installation (rectangular building, installed<br>before walls) using the installation method below: |  |  |
|                                  | Ashlar – 3-5 %   |  |  |
|                                  | Herringbone 3-5%   |  |  |
|                                  | For reference: 2 m wide broadloom typically<br>generates 7-10% installation waste                                |  |  |
| TacTiles®                        | Optimised for glue-free installation with TacTiles® connectors with virtually zero VOCs                          |  |  |
| End of Life Options              |  |  |  |
| Waste to Energy                  | Can be incinerated in appropriate waste to energy plant.   |  |  |
| ReUse                            | Can be cleaned and reused in a non-critical location to extend its useful life.                                  |  |  |
| Recycling                        | Can be returned through the Interface ReEntry scheme<br>and be reused as raw material in new carpet tiles.       |  |  |
