Interface®

Issued 02/2023

Interface, Inc. is a global commercial flooring company with an integrated collection of carpet tiles and resilient flooring, including luxury vinyl tile (LVT) and nora® rubber flooring. Our modular system helps customers create beautiful and sustainable interior spaces.

We're proud to note that all our CQuest™ carpet tile backings comply with the USDA BioPreferred Program and contain at least 42% USDA certified bio-based content. USDA has established the minimum bio-based content for carpet at 7%. Current federal law and the Federal Acquisition Regulation direct all federal agencies and contractors to purchase bio-based products identified by the U.S. Department of Agriculture (USDA), including carpet tile.

Our mission, Climate Take Back™, directly aligns with the DOD's stated goals of mitigating climate risk. By running our business in a way that is restorative to the planet, we reduce the destabilizing risks associated with climate change. We continue to reduce the carbon footprint of our product, and now produce carbon negative carpet tiles (cradle-to-gate).

Our 25-year commitment to reducing our impact on the environment earned us a UN Global Climate Action Award in 2020. This recognition stemmed from an extensive range of positive social impacts. In 2022 Interface earned Carbon Neutral Enterprise certification. We continue to make progress to becoming a carbon negative company by 2040. Visit interface.com/USAF to see all products in the program.
